# **DESIGN TO DECISION OBJECTIVES**

## **DTDO-ILLUSTRATOR (1<sup>ST</sup> VALIDATOR)**

### **PART 1: DTDO OVERALL PROCESS**

#### **Executive Summary**

The aim of DtDO is the detailed elaboration of a Decision Support Process as well as the development of methods and tools supporting its application in practice. The process and its supporting services shall fulfil the use case specific needs of Sub-projects 1 and 2.

This document is Part 1 of the deliverable called DtDO-illustrator (1<sup>st</sup> Validator) and describes this Decision Support Process in general and its supporting services as developed so far. Cost modelling is described in Deliverable D3.3.3\_2.

The full deliverable consists of four separate documents, Part 1 DtDO Overall Process (this document), Part 2 Components Impact Analysis, Part 3 Decision Object Internal Architecture and Part 4 Pre-Design Process.
