

Programme

- We have 5 presentation locations on the ground and first floors
- The Forum has 9 sessions spread around these locations, most are parallel
- We have 1 further plenary session - here in the auditorium at 17h15 tomorrow
- This auditorium will host the 3rd tier suppliers session (Session 9) from 14h00 till 17h15 tomorrow
- The overall programme and each room timetable are in the delegate pack, please consult this to plan your attendance
- Many presentations/demonstrations are being repeated so we hope you have the opportunity to see all you want
- Timings are tight! Please wait for the end of presentations to ask questions

Parallel Sessions

- **Session 1 - Project Overview and Commercially Focused Work**
– here in room 002
- **Session 2 - Systems and products Simulation to increase Design Fidelity and Reduce Development Cost** – here in room 002
- **Session 3 – Cost Reduction and Speed Improvement for the Component Change Process** – room 106, first floor
- **Session 4 – Cost Reduction through Optimised Multi-disciplinary Design Processes** – room 106, first floor
- **Session 5 – Improving the Efficiency of Supply Chains**
– room 104, first floor

Parallel Sessions

- **Session 6 – Demonstration of an IT Environment to enable Development Cost Reduction and Design Quality Improvement in a Multi-disciplined Extended Enterprise Scenario** – room 114, first floor, far side
- **Session 7 – Engineering Data Management**
- room 104, first floor
- **Session 8 – What Knowledge Engineering Processes and Collaborative Methods and Tools offer to the Aeronautical Industry**
- room 115, first floor far side
- **Session 9 – 3rd Tier Suppliers Focus** – here in room 002
